13+ Years Experience | English (Fluent) • Tamil (Native) | Banking • FinTech • Digital Payments • Enterprise Mobile

PROFESSIONAL SUMMARY

Senior Android Engineer with 13+ years of experience building secure, high-performance mobile banking applications, including 3+ years of hands-on UAE banking experience delivering the Emirates NBD (ENBD X) digital banking platform.

Deep expertise in Kotlin, Jetpack Compose, MVVM, and Clean Architecture, with a track record of leading module modularization, improving app stability, and shipping critical banking journeys such as Credit Card Application and Credit Limit Increase.

Combines strong individual-contributor engineering with technical leadership - mentoring developers, driving architecture decisions, and partnering with cross-functional teams - while consistently improving reliability, performance, and customer experience for large-scale digital banking platforms serving millions of users.

Proven background across Emirates NBD (UAE), Rabobank (Netherlands), and TSB Bank (UK), with specialized focus on payments, authentication, biometrics, and secure banking transaction flows.

CORE TECHNICAL SKILLS

Languages: Kotlin, Java

Android Development: Android SDK, Jetpack Compose, XML UI, Material Design, Navigation Components, Android Lifecycle Components

Architecture & Design: MVVM, Clean Architecture, Repository Pattern, SOLID Principles, Modularization, Design Patterns

Concurrency & Reactive Programming: Kotlin Coroutines, Flow, StateFlow, RxJava

Networking & Storage: REST APIs, Retrofit, JSON, Room Database, SQLite, Local Caching

Dependency Injection: Hilt, Dagger

Testing & Quality Engineering: JUnit, Espresso, Firebase Crashlytics, SonarQube, Lint, Code Reviews

DevOps & Tools: CI/CD, Jenkins, Git, Jira, Postman, Agile / Scrum

Domain Expertise: Digital Banking, Payments, Authentication, Biometrics, Credit Card & Credit Limit Workflows, Enterprise Mobile Applications

PROFESSIONAL EXPERIENCE

Senior Software Engineer (Android)

Sep 2022 - Present

Emirates NBD (via Servion Global Solutions), Dubai, UAE

- Designed and delivered end-to-end Credit Card Application and Credit Limit Increase journeys using Kotlin, Jetpack Compose, and Clean Architecture, enabling customers to self-serve two of the bank's highest-traffic digital requests.
- Led the modularization of the Cards module within the ENBD X banking application, restructuring the codebase into independent modules that reduced build times and enabled multiple teams to develop features in parallel.
- Increased crash-free users from 95% to 98% by proactively debugging production issues, performing root cause analysis, and shipping targeted stability and performance fixes.
- Built asynchronous, reactive data flows using Kotlin Coroutines and Flow to handle real-time account, payment, and transaction data with improved responsiveness.
- Implemented Hilt-based dependency injection across feature modules, improving testability and reducing boilerplate for a growing engineering team.
- Delivered secure banking features covering payments, fund transfers, authentication, and account management in line with banking security and compliance standards.

- Owned production support for critical banking flows, performing RCA on live incidents and delivering hotfix releases with minimal customer disruption.
- Mentored junior and mid-level Android developers through code reviews and architecture discussions, raising overall code quality and consistency across the Cards team.

Environment: Kotlin, Java, Jetpack Compose, MVVM, Clean Architecture, Hilt, Coroutines, Flow, Retrofit, Firebase Crashlytics, Jenkins, Git

Senior Android Consultant

Nov 2021 - Aug 2022

Wipro Technologies (MindPool Tech), Dubai, UAE

- Built core commerce features - product catalogue, search, wishlist, cart, and secure checkout/payment flows - for Bloomingdale's Middle East, a high-traffic regional e-commerce application.
- Improved UI rendering performance and application responsiveness, reducing perceived load times across key shopping screens.
- Partnered with backend, product, and design teams to deliver features end-to-end within an Agile delivery model.

Environment: Kotlin, Java, Android SDK, REST APIs, Agile, Git

Advisory System Analyst - Mobility

Oct 2020 - Jul 2021

IBM India Pvt Ltd, Chennai, India

- Delivered mobile banking features for TSB Bank (UK), including account management, fund transfers, bill payments, and transaction tracking.
- Integrated biometric authentication to strengthen secure customer login and transaction approval flows.

Environment: Kotlin, RxJava, Retrofit, REST APIs, XML UI

Technology Lead - Mobility

Jan 2015 - Oct 2020

Cognizant Technology Solutions, Chennai, India

- Led Android development for Rabobank's digital banking applications across Europe, owning the full feature lifecycle from requirements through production release.
- Delivered secure banking capabilities spanning payments, fund transfers, account management, and card services.
- Mentored developers and shaped technical decisions and coding standards across the mobile engineering team.

Environment: Kotlin, RxJava, MVVM, Retrofit

Android Developer

Feb 2013 - Dec 2014

Suhasoft Pvt Ltd | LIV Pvt Ltd, Chennai, India

- Built native Android applications and reusable UI components across consumer-facing mobile products, establishing the engineering foundation for later banking and fintech work.

Environment: Java, Android SDK, XML UI

KEY ACHIEVEMENTS

- Improved crash-free user rate from 95% to 98% on a large-scale digital banking application through systematic production debugging and performance optimization.
- Led Cards module modularization on ENBD X, improving scalability, build performance, and cross-team engineering velocity.
- Delivered two of the bank's core digital self-service journeys - Credit Card Application and Credit Limit Increase - from design through production.
- Recognized with multiple performance awards across Emirates NBD, Wipro, and Cognizant for technical contribution and delivery excellence.

KEY PROJECTS

- ENBD X - Emirates NBD Digital Banking Application (UAE)
- TSB Bank UK - Mobile Banking Platform
- Rabobank Netherlands - Digital Banking Application
- Bloomingdale's Middle East - E-commerce Application

AWARDS

- Excel Award - Emirates NBD
- Spot Award - Wipro
- Spotlight Award & Extra Mile Award - Cognizant

EDUCATION

Master of Computer Application (MCA) - Anna University, Coimbatore, 2011

Bachelor of Science (Physics) - Bharathidasan University, Trichy, 2008
